

DETERMINING HOW MANY UNITS TO TAKE EACH SEMESTER

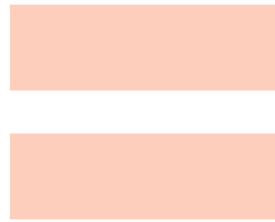

Full time?

Part time?

Working?

1=2

For every ONE HOUR spent in class...

...you should expect to spend TWO HOURS studying and completing assignments outside of class

EXAMPLE:

HIST B17A

HISTORY OF THE UNITED STATES

- 3 units
- For every unit, expect to spend one hour in class per week
- MW 11:10am-12:35pm
- R 6:00pm-9:10pm

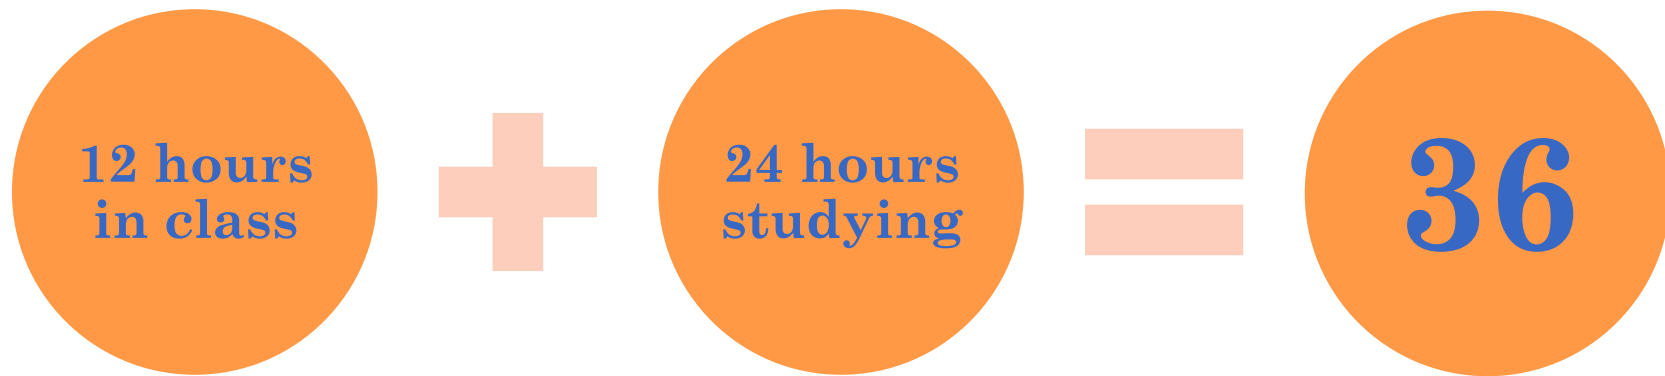

TOTAL HOURS SPENT ON HIST B17A PER WEEK

**One 3 unit class will take up 9 hours
per week!**

FULL TIME STUDENT (12+ UNITS)

A total of 36 hours per week spent on school! That's equivalent to a full time job!

FULL TIME STUDENT & FULL TIME JOB

- If you work **35-40 hours** per week and take a full load of classes (**12 units**), you will be ‘working’ for a total of **71-76 hours** per week! (And that’s not including your personal life – family, friends, ‘you’ time, etc.)
